

# Introducing Nausea-Bag

Put an end to time-consuming messes and exposure to dangerous bacteria with Cleanwaste's Nausea-Bag. The Nausea-Bag is a clean and safe lining for vomit receptacles that forms a 99.9% effective barrier against diseases.

Safe · Dignified · Clean

## The Nausea-Bag:

- Prevents Infections: No spills and no contact
- Flexible: Can be used anywhere, anytime
- Easy to Use: Pre-loaded with a NASA-developed powder that deodorizes, controls bacteria and absorbs liquids
- Preserves Dignity: No lingering waste and no clean up means better worker and patient morale

## Where is Nausea-Bag Used?

It's ideal for hospitals and clinics, behavioral health care facilities, acute care and long-term care, hospice and home health care.

## Product Highlights:

- Nausea-Bag contains a NASA Gel Polymer
- Nausea-Bag can be disposed of in regular trash

### Safe

- Prevents contact with human waste
- Gel powder eliminates splashing and spilling
- Easy closure for mess-free disposal

### Dignified

- Gels up to 32 oz. waste in 10-15 seconds
- Controls odor which lessens distress
- Can be used without caregiver assistance

### Clean

- Set up and disposal take seconds
- No cleaning or disinfecting needed
- Breaks waste down faster with degradable additive
